## WORK PERKS

With the work-from-home lifestyle becoming more the norm, Panorama Tower's spacious residences (up to the size of a single-family home!) and extensive business-related amenities are setting a new standard.

Space, and lots of it, is the new must-have apartment feature. At ***Panorama Tower***, 1 bedroom units start at over 1,100 sq. ft.; 2 bedrooms range up to 1,600 sq. ft. and 3 bedroom units are nearly 2,200 sq. ft. It's like living in a single-family home but without the hassles and headaches that come with maintaining it. The in-unit dens are also an exceptional solution for at-home offices. The spaces are generous, so you're able to leave "work" at "work," even when working from home. Want to meet with a client or just have a change of scenery? Panorama's cyber café and fully-equipped business center (with ePRINTit Portal) are the perfect environment for productivity. With the various social lounges and meeting areas, private dining and entertaining rooms, and a trio of private movie theaters on-site, you can stay connected, take calls, and host special events — from launch and viewing parties to small business gatherings. Content creators can utilize the soundproof music room to play and record music, videos, podcasts and more. You can even change it up and take advantage of the incredible Miami weather by working poolside on the expansive sundeck; [PanoramaTower.com](http://PanoramaTower.com).
